Press release September 22, 2017

Climeon announces its listing on Nasdaq First North Premier and publishes prospectus related thereto

Climeon AB (publ) ("Climeon" or the "Company"), announced on September 15, 2017 its intention to list its B-shares on Nasdaq First North Premier (the "Listing") and to raise capital through an issue of new B-shares (the "Offering"), to finance the future growth of the Company. Today, September 22, 2017, Climeon announces that the Company proceeds with the Listing and publishes the prospectus and terms for the Offering and the Listing.

The Offering in brief

- The Offering comprises a maximum of 6,451,614 newly issued B-shares, corresponding to approximately 15 percent of the outstanding shares and approximately 4 percent of the votes after the Offering.
- In addition, in order to cover any overallotment, the Company commits to, upon Pareto Securities' request, issue a maximum of an additional 967,742 new B-shares in the Company, corresponding to a maximum of 15 percent of the shares included in the Offering (the "**Overallotment Option**").
- If the Overallotment Option is fully exercised, the Offering will comprise a maximum of 7,419,356 B-shares, corresponding to approximately 17 percent of the total number of shares and approximately 4 percent of the votes in the Company after the Offering.
- The price in the Offering is set to SEK 31 per B-share, corresponding to a total value of all the Company's shares of circa SEK 1,100 million, before the Offering.
- The Company has outstanding warrants which gives the right to subscribe to 3,056,100 B-shares¹ in Climeon. After the redemption of all warrants the total number of shares in the Company will amount to 38,752,900 excluding the shares in the Offering, which corresponds to a total implied value of the Company's shares of SEK 1,200 million excluding the shares in the Offering.
- The Offering is expected to render proceeds of SEK 200–230 million to the Company before transaction costs, depending on the extent of the exercise of the Overallotment Option.
- Five Swedish institutions have, under certain conditions and at the same price as other investors, committed to subscribe for B-shares corresponding to a total of SEK 100 million or 50 percent of the Offering excluding the Overallotment Option. These subscription commitments include:
 - Ålandsbanken Fondbolag AB: SEK 30 million;
 - LMK Venture Partners AB: SEK 30 million;
 - Alfred Berg Kapitalförvaltning AB: SEK 15 million;
 - Gullspång Invest AB: SEK 15 million;
 - Blue AB: SEK 10 million.
- The Company has also received non-binding commitments from existing shareholders to invest a total of circa SEK 99 million in the Offering.
- Climeon has applied for listing of the Company's B-shares on Nasdaq First North Premier in Stockholm. Expected first day of trading for Climeon's B-shares is October 13, 2017 under the ticker "CLIME".
- A prospectus with complete terms is published today, September 22, 2017, on Climeon's website and on Pareto Securities website.

¹ Per the day of this press release the Company has 30,561 outstanding warrants, which gives the right to subscribe for 3,056,100 B-shares in Climeon AB.

- The Offering is directed to the general public in Sweden and institutional investors in Sweden and internationally.

Thomas Öström, CEO, comments:

“Climeon has made a fantastic journey since 2011 when we founded the company – we have developed a revolutionary technology with large potential within our segment for clean and renewable energy and since 2015, the product is both technologically and commercially proven. A listing is welcomed by me and the board and will provide additional assurance to our current and potential customers and partners. We have already seen a large interest in investing in Climeon – prominent Cornerstone Investors are supporting the IPO and there is a large amount of interest from existing shareholders. Now we would like to welcome institutions and the general public to subscribe to shares in the share issue.”

Per Olofsson, Chairman of the Board, comments:

“I am confident in the management which has taken Climeon from being a development company to a business-driven company with a growing order intake and large-scale production capabilities. Already in 2015 Climeon delivered their first systems to customers – now we see larger customer projects and orders from global companies such as Maersk Line, Virgin Voyages and a world-leading Indian steel producer, as well as repeat orders from Viking Line and SSAB. The upcoming capital raise and listing will give Climeon the power to accelerate to the next level and keep pace with the sales growth, which has already taken off. I would therefore like to, on behalf of the company, welcome new investors to subscribe for shares in the share issue and take part in the company’s future development.”

Background to the Offering

The purpose of the Offering is to finance the Company's continued growth until the Company reaches a positive cash flow from operating activities, as well as to increase the profile and knowledge of Climeon internationally among customers as well as current and potential partners. Of the proceeds from the Offering after transaction costs, approximately SEK 49 million is intended to be used to expand the sales and marketing organisation, in part through recruitment in Sweden but also locally in specific geographical areas or through external sales partners; approximately SEK 49 million is intended to be used for an expansion of the service and delivery organisation in order to serve a larger and global customer base; approximately SEK 40 million is intended to be used for product development where the priority is to increase the reliability of the system and reduce production costs, however a number of easily implemented efficiency improvements are also planned for 2017; approximately SEK 40 million is intended to be used to finance operating activities until the Company has achieved a positive cash flow, and the remaining SEK 10 million will be used to repay short-term loans. If the Overallotment Option is used in its entirety the proceeds from the option will be distributed proportionally between the above described usage areas.

Prospectus and application form

Prospectus and application form will be published on Climeon’s website www.climeon.com and on Pareto Securities website www.paretosec.com. Application for the general public in Sweden can also be made on Pareto Securities internet service www.paretosec.se or via Avanza’s internet service www.avanza.se.

Settlement date:	October 13, 2017

Advisors

Pareto Securities is Global Coordinator and Sole Bookrunner and Baker McKenzie is the legal advisor in connection with the Offering.

About Climeon AB (publ)

Climeon provides a technology that uses the energy in waste heat from industries and low-temperature geothermal heat to generate electricity. The Company received its first order in 2015 and has since then built up a customer base consisting of Viking Line, Virgin Voyages/Fincantieri, Maersk Line, CP Energy and SSAB, among others. It has now reached a stage where it has proven its technology and its commercial marketability through repeat orders from leading players in a number of industries. The product is protected by patents and

offers market-leading performance within its areas of application. Climeon has also built a scalable organisation with a high production capacity and an experienced management team primed for rapid growth.

Climeon's market and focus segments

Waste heat and geothermal energy (below 120°C) jointly comprise a vast energy source that is largely untapped today due to limitations of existing technologies. Climeon's product is the first heat recovery system to be able to utilise this previously unexploited source of energy on a large scale to produce electricity. The Company has therefore the opportunity to enter in a new market with limited competition. Climeon is currently focusing on four market segments: maritime, steel and cement production, genset (generators) and geothermal energy.

Important information

This announcement is not and does not form a part of any offer for sale of securities. Copies of this announcement are not being made and may not be published, made public or distributed, directly or indirectly, in the United States, Australia, Canada, New Zealand, Hong Kong, Japan or any other jurisdiction in which such distribution would be unlawful or would require registration or other measures. The securities referred to in this announcement have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), and accordingly may not be offered or sold in the United States absent registration or an exemption from the registration requirements of the Securities Act and in accordance with applicable U.S. state securities laws. The Company does not intend to register any offering in the United States or to conduct a public offering of securities in the United States.

Any Offering of securities referred to in this announcement will only be made by means of a prospectus. This announcement is not a prospectus for the purposes of Directive 2003/71/EC (together with any applicable implementing measures in any Member State, the "**Prospectus Directive**"). Investors should not invest in any securities referred to in this announcement except on the basis of information contained in the aforementioned prospectus. In any EEA Member State other than Sweden that has implemented the Prospectus Directive, this communication is only addressed to and is only directed at qualified investors in that Member State within the meaning of the Prospectus Directive, i.e., only to investors who can receive the offer without an approved prospectus in such EEA Member State.

This communication is only being distributed to and is only directed at persons in the United Kingdom that are (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "**Order**") or (ii) high net worth entities, and other persons to whom this announcement may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "**Relevant Persons**"). This communication must not be acted on or relied on by persons who are not Relevant Persons. Any investment or investment activity to which this communication relates is available only to Relevant Persons and will be engaged in only with Relevant Persons. Persons distributing this communication must satisfy themselves that it is lawful to do so.

Matters discussed in this announcement may constitute forward-looking statements. Forward-looking statements are statements that are not historical facts and may be identified by words such as "believe," "expect," "anticipate," "intends," "estimate," "will," "may," "continue," "should" and similar expressions. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations expressed or implied in this release by such forward-looking statements. The

information, opinions and forward-looking statements contained in this announcement speak only as at its date, and are subject to change without notice.
