

CLIMEON QUALITY & ENVIRONMENT POLICY

Climeon's products enable customers to earn money while saving the environment by reducing CO₂ emissions.

Our goal is to make the world a better place via brilliant innovations that challenge established truths and ensure customer satisfaction. We make this happen through utilisation of extraordinarily talented staff with diverse backgrounds who manage to make use of their unique experiences to find solutions.

Our management system is certified according to ISO 9001 and ISO 14001 to assure that we are constantly improving with our customers and environment in mind.

Climeons quality & environment policy means that we should:

- Consider methods and materials to ensure high quality and low environmental impact through the products' life-cycle.
- Work closely with our customers and partners to get feedback on our products and services to ensure that we create high customer value.
- Ensure that employees, suppliers and other partners understand that they are required to work with preventing risks. Relevant deviations should be reported and analyzed for root causes.
- Be aware of and follow relevant laws and regulations.
