

QUALITY AND ENVIRONMENTAL POLICY

At Climeon, we are committed to delivering high-quality sustainable energy solutions while minimizing our environmental impact. Our integrated management system is designed to meet the requirements of ISO 9001 and ISO 14001 standards, demonstrating our dedication to excellence in quality and environmental responsibility.

Quality Commitment:

Customer Satisfaction: We are dedicated to understanding and meeting the needs and expectations of our customers. We strive to provide innovative and reliable sustainable energy solutions that exceed industry standards.

Continuous Improvement: We foster a culture of continuous improvement in all aspects of our operations. Through regular reviews and assessments, we identify opportunities for enhancement in our processes, products, and services.

Compliance: Climeon is committed to complying with all applicable legal and regulatory requirements related to our products and services. We establish and maintain procedures to ensure conformity with these requirements.

Employee Involvement: Our employees are the key to our success. We encourage their active participation, provide training and resources, and empower them to contribute to our quality objectives.

Policy Management & Development: Our management team reviews this policy and its framework annually to address opportunities for enhancement and develop methods of achieving the policy objectives.

Environmental Commitment:

Resource Efficiency: Climeon is dedicated to the efficient use of resources, including energy and raw materials, to minimize our environmental footprint. We strive to reduce waste and promote recycling throughout our operations.

Pollution Prevention: We are committed to preventing pollution by identifying and controlling the environmental aspects of our activities, products, and services. We implement measures to minimize emissions, discharges, and other potential environmental impacts.

Compliance: Climeon complies with all applicable environmental laws, regulations, and other requirements. We monitor changes in environmental legislation and adjust our processes accordingly.

Stakeholder Engagement: We engage with our stakeholders to understand their environmental concerns and expectations. Through effective communication, we aim to build transparent relationships and address environmental issues collaboratively.

Policy Management & Improvement: Our management team reviews this policy and its environmental effectiveness annually in order to establish areas of potential improvement and adaptation.

Objectives:

Our objectives include:

- Achieving and maintaining a high level of customer satisfaction.
- Continuously improving our energy solutions, processes, and services.
- Minimizing our environmental impact through resource efficiency and pollution prevention.
- Ensuring compliance with relevant quality and environmental regulations.

This Quality and Environmental Policy is communicated to all employees and stakeholders and is regularly reviewed to ensure its ongoing suitability and effectiveness.
